Parent/ Carer Information Communications Technology (ICT) Agreement

I understand ICT resources can provide students with valuable learning experiences. I also understand it gives access to information on internet sites around the world the school can not control; and a very small part of that information could be undesirable.

I understand separate permission will be sought if my child's photograph is to be displayed, where appropriate, on WebPages made by teachers or students.

I understand that the system administrator has the ability to check my child's computer files, Internet and email usage. I accept, while teachers will always exercise their duty of care, protection against exposure to harmful information must depend finally upon the responsible use by the students.

I believe that _____ (*name of student*) understands this responsibility, and I hereby give permission for him/her to access, produce and communicate information on the Internet and email under the school rules. I understand that students breaking these rules will be subject to appropriate action by the school. For minor breeches loss of Internet access for some time may occur. For serious or repeated breeches consequences for student actions will be determined through the school's Student Code of Conduct. I will advise the school in writing if my consent is to be revoked.
